

Help protect yourself, your family and your budget from the financial impact of a critical illness.

Why Critical Illness Insurance matters

Contrary to what many people believe, medical insurance may only cover a portion of the expenses associated with treating a serious illness. Plus, additional costs that often come with recovering, like childcare, transportation, and grocery delivery, may be left up to you. Critical Illness Insurance can provide you with a benefit that can help you pay for unexpected costs, such as those that your existing medical insurance may not cover.

Handling the emotions that come up when experiencing illnesses such as a cancer¹ diagnosis, heart attack,² or stroke³ is difficult enough. Worrying about your financial stability on top of this can obviously be overwhelming. With Critical Illness Insurance, MetLife can help you and your family have the financial stability necessary to completely focus on healing during a difficult time.

When critical illness affects your family, you'll have the financial support when it matters most.

An example of how Critical Illness Insurance can help.

"Tricia never would have expected to suffer a heart attack. But one day while teaching English class, she felt an intense shortness of breath and pain in her jaw. Luckily, the school nurse called 911. The last thing Tricia needed was to worry about finances — she just had to focus on getting better. Critical Illness Insurance helped Tricia pay for things that medical insurance didn't cover, like specialist co-pays and extra help around the house, while she recovered."*

Frequently Asked Questions

I have a medical plan at work, so why do I need Critical Illness Insurance?

- A. Even the best medical and disability income plans can leave you with extra expenses like medical plan deductibles and co-pays or extra costs for out-of-network care. And if you're out of work because of a disability, it might be that only a portion of your pre-disability income is being paid to you. Many people aren't prepared to handle the extra costs that can come with a critical illness, so having this extra cash as a lump-sum payment may mean less worry for you and your family.

What happens if I have a recurrence?

- A. **Your plan pays an additional benefit (Recurrence Benefit) if a medical condition reoccurs for:** Benign brain tumor, invasive cancer, non-invasive cancer, heart attack, stroke, coronary artery bypass graft, coma, and severe burn. A recurrence benefit is only available if the initial benefit has already been paid for the covered condition.¹¹ And there is a benefit suspension period (or waiting period) between recurrences.⁹ Also, a 90-day treatment-free period applies to invasive and non-invasive cancer.

Are benefits paid directly to me or my healthcare provider?

- A. **Benefits will be paid directly to you**, not to the doctors, to the hospitals, or to any other healthcare providers. There's no need to coordinate with any other insurance you may have. Benefits are paid no matter what your other insurance plans may cover or pay.

When does my coverage begin?

- A. **Your coverage starts on the effective date.** There are no waiting periods for Critical Illness Insurance benefits to begin.

If my employment status changes, can I take my coverage with me?

- A. **Yes. This coverage is portable, meaning you can take it wherever you go.** Your coverage will only end if your employer offers you similar coverage with a different insurance carrier.¹¹
